“ I was deeply saddened to learn of Steve's death. I had the privilege to know Steve for only a short period of time, but he immediately impressed me with his passion for aviation and commitment to his profession while serving with the Kentucky aviation office. May his family find solace in the knowledge that he was admired by many in the world of aviation.

“ I was in elementary school with Steve...even then, he was an extraordinary person. I will never forget him...he was my first sweetheart...(3rd grade)...I am so terribly sorry for your loss.

“ Kimberly M & Family,

Please accept my sincere sympathy and condolence for your loss. My acquaintance with Steve was through the connection of Comanche aircraft and the discussions on a forum. I regret not having met such a wonderfully describe individual.

I recently retired from the ministry. Therefore please allow me to offer a few words of solace. You will not "get over" your loss, but the passing of time will hel you to accept it more easily. Your friends and neighbors are going to go back to their normal routines and the difficulty of grief will have to be faced. t's normal to be reminded of your loss when a sight, sound, smell, and such brings recollection of the good life you had together. It's also normal to become angry at Steve for leaving you alone, others for still having their mates, and God for allowing it to happen--it'll get better.

If you would like to converse, I'm available.

“ Steve will always be the greatest friend a man could ever hope for. Honor, integrity and excellence in all endeavors. The greatest student, and the greatest teacher. Every day was a good day that I was flying with Steve. I have not the words to describe what a richer man I am to have known him. Although it lingers for a while, I will not dwell on my great loss, but treasure the countless hours of laughter, joy and good times. For I am a better man because of Steve. His legacy will live on through me, my children, and generations of my family. May God's grace and comfort be with you, Kim.

“ Rolls' & my thoughts and prayers are with you, Kim, and Steve's family. Steve is flying higher now than we could ever dream, sharing the clouds with those who went before him. We can only share in the sadness because our time to fly is yet to come. Until then, we are bound by the bonds of gravity and each other as we yearn to seek the world beyond.
