“ Paul, I miss you, my friend. You fought the hard fight for a healthier life that only you and I knew and understood. I was and am so proud of all that you did to better your life right up until the end. I know that your family, close friends, and the staff at Frankfort Care and Rehab and Georgetown Bariatrics are too.

*I am so thankful that God crossed our paths to meet while we were both at Frankfort Care and Rehab together. I found a sweet, kind friend whom I will never forget. As I continue on with my weight loss journey after recently having my surgery, I will go forward with you always in my thoughts. I will work even harder for a healthier life for myself, for this is what you would want for me.*

*God Bless and keep you, for you now are at peace, free from burden, and have been given a new, healthy body forever.*

*Peace, my good friend* 🌹🕊️🌹🕊️
