Jean loved cooking, working in the yard and riding her zero turn lawn mower, but her biggest lifes treasures was her family. She was beautiful on the outside as well as the inside and loved so much by her family and all that knew her. She was loving and caring and always there. She never did anything half way it was either all or nothing, but friend or foe, you knew where you stood. As our souls write the story of our lives she will stand brightly in the love she gave.

“ My sister Jean was with me my entire life. We shared many memories, good and bad, for all of that time. There were so many happy times, especially in raising our children. Even though she was 12 years older, I taught her to roller skate which was not a good experience for her. I think she learned to laugh about it MANY years later. She gave so much of herself especially when she worked at the nursing home. Her compassion was unending. She will certainly be missed but I take solace in the fact that she is dancing with the angels, free of pain. I'm sure she has a garden in heaven to tend to. Forever her baby sister. Karen

“ Remembering a beautiful woman, mother, sister, aunt and friend. My aunt Jean was so full of life and love that she could hardly contain it sometimes. Always laughing and wanting to just be busy doing something whether it was working in the yard or taking care of the others, that was just who she was. I will miss you dearly as well as all who loved you. You fought as long as you could, now you can rest. Love you, see you on the other side. Missy.

“ I am so sorry for your loss of Jean. I just read the paper and saw the obituary. At first I did not recognize the name until I read further down. To Barry and Darren, please know I am praying for you and your family during this trying time of loss. Darren, you are too young to remember this, but I remember when Jean used to watch me when school was out. I remember going with her and Gary and Larry to the tobacco field and the tobacco barn. We would ride the wagon to the barn where they put up the tobacco while I got to go look at the horses in the adjacent field or play around the salt blocks. Jean was like my #3 mom behind my mom and grandmother. Again, I am so sorry for your loss and you will be in my prayers.
